Re: Lower Passaic River Remedial Investigation/Feasibility Study - Transmittal of Requested Mapping- Related GIS Files	Date: March 24, 2015
	Project: 120980-02.01 Task 01.05

<u>Number</u>	<u>Description</u>
1	Zip file containing GIS files, readme files, and a table listing the files contained in the geodatabases

Comments:

This transmittal of three ESRI geodatabases includes most of the files requested in your March 17th 2015 e-mail. The included table and readme files describe each of the files. We are still working on compiling the probing data, grainsize data, and one professional judgement edit and expect to send these files at the end of this week.
